Comments

1. ground only on one face ; only one period of working apparent.
2. patinated white, but fresh breaks show blue-grey flint.
Like other Stonwick cells, flint is mottled with grey patches.
3. like other Stonwick cells, encrustation on one face only.
It is not so fresh as the others - presumably because of much handling since discovery.
4. Letter WRG Moore 26.8.81: 'comes from the same area [as the Stonwick cache] but cannot, at present, be definitely linked with the hoard'. Loaned 1979 (L.426) by Mr N. Headland.
