BILLINGSHURST, SUSSEX. Polished flint celt presented to me by Miss H. May Rutherford of Pulborough, [....] 31 Dec. 1901 who informed me that her late father Dr. Rutherford of Pulborough (successor to Dr. Taylor who succeeded Dr. P.J. Martin) had had it many years and he understood that it was found near Pulborough. It is clearly ~ One of four found in making a new ditch (in 1852) near Billingshurst an illustration of which accompanies Dr. Martin's paper in *Sussex Arch. Coll.* Vol. IX p. 117 (1857).
