Comments

1. found while pipe-laying at the Old Wash.
2. this piece was lost or discarded while still in its handle. The front face is stained dark green, with a lighter green band running across the middle. The left side is stained in the same way. The back face is stained a lighter brown/green, with the left shadow only faintly visible.
3. surface very smooth. Blade edge not particularly sharp, but almost completely unscarred: the axe does not appear to have been used.
4. found while pipe-laying
