Comments 1. Li. 20; 19.

Z. Cummino 4 Hoose 1973: Li 20 & Li 19 (60091) 'found together'. Museum records note only that they were both found by Mr. R. Helson in 1947, at TF 14674981. O.S. records give same data (with NGR TF 14664980). The Z celts have same brownish patina. (and with celts themselves says they were found 'with' each other.
